

Network Managed Services

Lightstream Managed Services

How We Help:

- Monitor and manage your infrastructure 24x7x365
- Resolve carrier issues faster with less downtime and lower cost
- Identify and resolve chronic events with carrier services
- Provide a predictable OpEx cost model

Customizable Services:

- Proactive monitoring and carrier management of firewalls, routers, switches and endpoints
- Full managed services for network infrastructure devices, including incident management, configuration management, change management and break/fix
- Dedicated Customer Service Managers provide ongoing reviews
- Optional field services for site work

Solution Partners:

Ensure Network Uptime for Your Business

Our state-of-the-art Network Operations Center (NOC) serves Fortune 500 companies and uses industry best-practices in its processes, procedures and methodology to ensure 24x7x365 support of your network. The NOC is staffed with agents in multiple locations in the event of a disaster.

Supported by an elite team of network specialists who respond in real time to disruptive network events, we serve as an extension of your IT team so you can stay focused on your business.

Connect, Protect and Optimize

No matter where you do business, our services platform and team of highly trained network experts will help you effectively drive business outcomes, while mitigating risk. Let us worry about talent and staffing, providing you faster resolution times, the right expertise 24x7 and demonstrable cost savings.
