

# Access Defense

Lightstream Managed Security Services

## How it Helps:

- Secures the expanded perimeter without compromising security
- Consolidates security administration and management across the organization
- Maintains consistent security and full inspection of traffic for all locations and users
- Works seamlessly with existing Palo Alto Panorama physical and virtual firewalls
- Provides easy provisioning in the cloud
- Offers a predictable OPEX model

## Why Choose Us?

- Certified Experts on AWS and Microsoft Azure
- Palo Alto Networks Global Cloud Partner of the Year 2018 & 2019
- AWS Security Competency Partner Certification 2020

## Solution Partners:

## Managed SASE with Zero Trust Innovation

Lightstream Access Defense, built on Palo Alto Networks' Prisma Access™, is a Secure Access Service Edge (SASE) platform that uses a common cloud-based infrastructure to deliver connectivity from over 100+ locations in 76 countries.

Advanced Zero Trust automation manages your security policies and infrastructure by leveraging the full suite of PAN-OS® security features, including the safe enablement of applications, user-based policies, threat prevention, DNS security, URL filtering and cloud-based threat analysis using Palo Alto Networks Wildfire™.

## Connect, Protect and Optimize

No matter where you do business, our services platform and team of highly trained cloud and security experts will help you to effectively balance risk and business outcomes. You'll benefit from faster resolve times, the right expertise 24/7 and demonstrable cost savings.

**Connect Your  
Business Assets**
