

Edge Defense

Managed Security Services

How it Helps:

- Provides management, maintenance and operational support for next-generation firewalls and WAFs
- Offers full lifecycle services to implement, operationalize and optimize firewalls at scale
- Supports security and compliance requirements with a predictable OPEX model

Why Choose Us?

- 24/7 Security Operations Center (SOC) protection
- World-class technology expertise
- Multiple service tiers and customizable delivery models

Solution Partner:

Unparalleled Managed Firewall Protection

Lightstream Edge Defense provides management, maintenance and operational support for your next-generation firewalls and web-application firewalls (WAF).

Supported by a highly skilled 24/7 SOC team, Edge Defense can be purchased as a standard solution or customized with advanced features ideal for high scalability in an enterprise or cloud environment.

Connect, Protect and Optimize

No matter where you do business, our services platform and team of highly trained cloud and security experts will help you effectively balance risk and business outcomes. Edge Defense is available in three service tiers: 1) basic 24x7 device and policy monitoring, 2) complete configuration and security policy management, and 3) full digital forensics and incidence response (DFIR).
